

# Education In Dance & The Related Arts

*A meaningful introduction  
and foundation in the arts  
for lifetime enhancement*

Since 1981, Education in Dance and The Related Arts has provided a unique integrated arts enrichment program for over 60 public and private schools in the NYC area.

We teach UPK through high school students of all populations including Special Education, Bilingual/ESL, and Gifted/TAG. Each residency class combines basic dance skills with creative movement, theatre games, an exploration of quality music (classical, ethnic, jazz), visual art forms, nutrition, and tumbling as it relates to dance.

## Safety First!

For the 2022 - 2023 year, we are excited to return to in - person lessons! Our faculty is fully-vaccinated, and we are continuously adapting our program to meet protocols provided by the CDC and Dept. of Education.

We are available for residencies of various lengths, and typically recommend meet each class once a week. At this time, we are also offering schools the opportunity to incorporate at-home learning with us through our asynchronous video lessons. Our online programming is fun for the whole family, and customized to enhance (or substitute) our in-person lessons, as needed!

Residency prices range from \$350 - \$650/day –  
depending upon number of lessons desired and classes per day.
