

DANCING CLASSROOMS

DANCING WITH RHYTHMS & STORIES

An interactive Social Dance Residency for student in
Kindergarten - 2nd grade

Modeled after our tried and true Core Program, this 8-week, 16 session residency combines the fundamental elements of **social dance** with **creative movement** and **storytelling** from around the world. This program:

- Engages participants while sparking imagination, encouraging self-expression, and strengthening coordination and communication skills
- Emphasizes critical SEL skills such as connection, confidence, respect for others, teamwork, and determination
- Is open to students with various learning needs and abilities

Can be tied to multiple learning areas, and places a strong emphasis on NYS Learning Standards in Domain 1: Approaches to Learning.

With a particular focus on young-learners who began their school journeys during the pandemic, this residency is a great primer for students who will then continue with Dancing Classrooms in later grades.
